TECHNICAL DATA SHEET

GASOLINE INJECTOR CLEANER

Cleans the Engine after Each Oil Drain

DESCRIPTION:

Rymax Gasoline Injector Cleaner is especially developed for motorcycles and scooters to keep the entire gasoline supply system in optimal condition.

How to use?

For all gasoline, leaded or unleaded, engines with injectors or carburetors. Does not harm catalytic converters.

Dosage

Pour the contents of one bottle of 80ml in the fuel tank before filling it with fuel. One bottle will treat 20 litres of fuel. Normal use requires one bottle every 2000 km. Intensive or sportive use requires one bottle for each tank filling.

BENEFITS:

- Rinses injectors, carburetors, and the entire gasoline supply system
- Valve sticking elimination
- Deposits of gums, varnish, and sludge prevention
- Gasoline consumption reduction and protection against corrosion
- Emission of hazardous gases reduction
