## DIESEL SMOKE REDUCER

Reduces Diesel Engine Smoke Emissions

### DESCRIPTION:

Rymax Diesel Smoke Reducer is designed to reduce smoke emissions from diesel engines caused by incomplete combustion or excessive oil consumption.

#### Usage

For all diesel engines (incl. common rail) with or without turbochargers running on low or normal sulphur level diesel fuel.

#### How to use?

Pour the contents of one bottle in the fuel tank before filling it with diesel fuel.

#### Dosage

For 40-60 liters of diesel fuel, use one 250 ml bottle. For intensive or sportive use, use one bottle for each tank fill-up.

### BENEFITS:

- Enhances maximum combustion efficiency, optimizing the overall performance of the engine and ensuring a clean combustion chamber.
- Cleans injector channels and nozzles, facilitating complete combustion of the fuel.
- Suppresses exhaust smoke, resulting in a cleaner and more environmentally friendly operation.
- Improves overall engine performance, leading to enhanced power, responsiveness, and smooth operation.
- Reduces fuel consumption, promoting fuel efficiency and cost savings.

### TYPICAL PROPERTIES

	Unit	
Density	g/cm <sup>3</sup>	0.801
Colour		Clear/Amber
Flash Point	°C	>61
Odor		Chracteristic
