

DESCRIPTION:

Rymax Crius 100 is a high-quality chain saw oil, based on high refined base oils with a special additive package to provide a very high adhesive strength to the chain to provide excellent lubrication properties and avoid oil loss. It is especially developed to lubricate the chain of chain saws so that this does not break or get jammed. It is recommended for use for both engine and electrically driven chainsaws. Thanks to its optimum viscosity and excellent adherence properties, Crius penetrates deeply between bushes and links without dripping or splashing during operation. Moreover, this oil prevents any dust or sand accumulation. Rymax Crius is also available in ISO-VG 220.

Crius is NOT suitable to lubricate the engine of the chain saw.

BENEFITS:

- Excellent tackiness properties to provide superior adherence of the oil and avoid dripping.
- Superior lubricating properties to prevent premature chain failure.
- Special rust inhibitors to prevent rust and corrosion.
- Excellent adhesive strength
- Good cleanliness to avoid any sand or dust accumulation.

TYPICAL PROPERTIES

ISO-VG	Unit	100
Density 15 °C:	Kg/m ³	882
Viscosity 40 °C	cSt	101
Viscosity 100 °C	cSt	11.3
Viscosity Index		98
Pour Point	°C	-30
Flash Point	°C	>201
