

DESCRIPTION:

Rymax Caldax 3 is a hydrated calcium thickened lubricating grease based on mineral oil. The grease contains antioxidants. The calcium thickener makes the product highly water resistant. Together with the stiff consistency, the grease acts as a seal as well as a lubricant. Rymax Caldax 3 is a high quality grease that is suitable for lubrication of marine applications and excels in various wet environments and conditions.

BENEFITS:

- Good mechanical stability
- Ability to act as both seal and lubricant
- Excellent sea and fresh water resistance

SPECIFICATIONS:

- ISO 6743 ISO-L-XBAAA3
- DIN 51502 K3C-25

TYPICAL PROPERTIES

Thickener		Calcium
Base Fluid		Mineral Oil
Texture		Hydrated
Colour	Visual	Beige
NLGI Grade		3
Dropping point	°C	>90
Base oil viscosity at 40°C	mm ² /s	110
Base oil viscosity at 100°C	mm ² /s	12
4 Ball Weld load	N	2000
Penetration 60 Strokes		220-250
Temperature Range	°C	-25°C to +60°C (Max +80 °C)
