

#### DESCRIPTION:

Rymax MarLub 1540 marine oil represent premium-grade lubricants designed specifically for medium-speed trunk piston diesel engines utilized in the maritime industry. These engines typically operate on distillate or light residual fuels containing up to 1.5% sulfur content. Formulated using top-tier paraffinic base stocks and carefully chosen additives, MarLub 1540 oil offer an exceptional blend of qualities, including superior detergent, dispersant, anti-wear, and oxidation-resistant attributes.

Rymax MarLub 1540 marine oil come highly recommended for employment in high-output, medium-speed trunk piston marine diesel engines. They also find suitability in specific reduction gear systems where the machinery manufacturer mandates this class of lubricant. These oils are expertly tailored to cater to the demands of medium-speed trunk piston diesel engines in marine applications.

#### PERFORMANCE LEVELS:

- API CF

#### BENEFITS:

- **Enhanced Engine Cleanliness:** Achieve a higher level of piston and crankcase cleanliness due to its superior detergency, contributing to overall engine health.
- **Reduced Engine Wear:** Experience minimized wear on engine components with improved anti-wear properties, promoting prolonged engine life.
- **Outstanding Thermal and Oxidative Stability:** Enjoy excellent stability in the face of high temperatures and oxidation, ensuring consistent and reliable performance.
- **Effective Corrosion Protection:** Safeguard engine parts from corrosive byproducts of combustion, maintaining the integrity of components.
- **Advanced Water Separation and Anti-Corrosion:** Benefit from superior demulsibility characteristics that efficiently separate water from the oil, while specialized inhibitors prevent corrosion in harsh saltwater environments.

#### TYPICAL PROPERTIES

SAE	Unit	40
Density 15 °C	Kg/m <sup>3</sup>	891
Viscosity 40 °C	cSt	140
Viscosity 100 °C	cSt	14.6
Viscosity Index		103
Pour Point	°C	-12
Flash Point	°C	>201
Total Base Number (TBN)	mg KOH/g	15.5
